Matt D'Souza

Skills

- o Fluent in Python, OCaml, Java, C++, Scala, Ruby, SQL
- o Passionate about compilers, programming languages, and databases
- o Broad range of experience in backend, infrastructure, data, and full-stack engineering

Work Experience

- Jun-Aug 2020 **Software Engineering Intern** | Facebook | Seattle, Washington (Remote)
 - o Developed a best-effort translator between Presto and Spark SQL to facilitate pipeline migration
 - o Fully translated over 3000 memory-intensive Presto pipelines to Spark
 - o Built a dashboard to track progress and prioritize translation efforts
- Sep-Dec 2019 **Software Engineering Intern** | Facebook | New York City, New York
 - o Designed a Python API for programmatically decoding and inspecting Android DEX files
 - o Built a utility to generate semantic and structural diffs between Android APK files
 - o Profiled and optimized diffing utility, reducing execution time by a factor of 90
- Jan-Apr 2019 **Software Engineering Intern** | Facebook | Menlo Park, California
 - o Built a more reliable and robust VSCode extension for Pyre, Facebook's Python typechecker
 - o Reduced Pyre's startup time by as much as a factor of 8 using a more efficient build process
- May-Aug 2018 Software Engineering Intern | Snowflake Computing | San Mateo, California
 - o Implemented compiler and client support for multi-statement query execution
 - o Optimized SQL client's handling of array binds to protect the database from degraded performance
- Sep-Dec 2017 Relevancy Engineering Intern | Wish | Toronto, Ontario
 - o Reduced the time to build product image similarity graph from 20 hours to 30 minutes
 - o Developed a versioning scheme for Redis to enable simultaneous data updates across all Redis nodes
- Jan-Apr 2017 Data Platform Engineering Intern | Shopify | Toronto, Ontario
- May-Aug 2016 **Software Engineering Intern** | *Veeva Systems* | Toronto, Ontario

Education

- 2020- Candidate for Master of Mathematics (Computer Science) | University of Waterloo 2015–2020 **Bachelor of Software Engineering** | *University of Waterloo*
- - o Undergraduate Research Assistant (2016): Bazel and Java 9 integration for the Checker Framework
 - o Part-time ISA (2018): Instructional support for CS 241E, an intro compilers class
 - o Undergraduate Research Assistant (2019): Using static analysis to optimize TrueType font bytecode

Interests

- o Court & beach volleyball
- o Acoustic guitar, electric keyboard
- Crosswords
